

Product Name

Nut Butter Grinder

Model: FG-70

Product's special traits & characteristics:

1. 316 stainless steel: re-materialized to the discharge parts, fully using 316 stainless steel material
2. Original: Grinding without adding oil
3. Fast: Grinding speed is faster than conventional grinders
4. Cleaning: Disassembly fast, easy to clean
5. Low temperature: Does not destroy the nutrition of food
6. Adjustable weight: Gaskets can be placed to adjust the thickness of the material
7. Double waterproof: Prevents water or oil from flowing into the motor
8. Speed adjustable: Speed is slow and the taste will vary

ACCESSIBILITY

- * Drain hydrant: When the material is water-biased, the water-sequestration material can be allowed to flow out of the device
- * Reverse device: When the material is stuck, it can be returned using the anti-transfer item
- * Cooling fan: Effective for long periods of time

Specification

| | |
|-------------|--|
| Voltage | 220-240v/50-60Hz |
| Horse Power | 1.5 HP |
| Speed | 60-1800 rpm |
| Materials | stainless steel (shell-304/feed-to-feed-316) |
| Weight | 32KG |
| Dimensions | 51cm long, 26cm wide, 50cm high |
| Origin | Made in Taiwan |
